

Request for Quote for Level Measurement Equipment

Date:

From:

Company: State:

Contact Name: Phone: Email:

1. Environment / Application details:
e.g. measuring level in a tank

2. Process Medium:
e.g. Clear Water, Waste Water (any suspended particulates?), Fuel Oil, Diesel, Chemical (Name?), type of Acid or Base (citric acid or sodium hydrate), Foaming liquids.

3. Concentration: *e.g. 0.2%, 5% or 30%*

4. Pressure: (Open Tank (Atm) e.g. 2 bar, 50 PSI, 10 kPa) Nominal = Min = Max =

5. Temperature (*C, *F or K):
- Ambient Temperature: Nominal = Min = Max =
- Temperature of Media: Nominal = Min = Max =

6. Viscosity (if known): *e.g. cP, cSt, mPa.S*

7. Density (or SG): *e.g. Kg/l, Kg/m3 or SG = x.xx*

8. Output Required: Local Indication Remote Display Multiple Switch Points -Quantity
 Single Switch Output Analogue Output - 4-20mA 0/1-5/10V

9. Available Power Source: 12Vdc 24Vdc 24Vac 110Vac 240Vac Solar Panel Battery
 None Other - Specify

10a. Vessel Dimensions: 10b. Vessel Material:

11. Connection Size & Type: *e.g. 2" BSP, 1 1/2NPT, 2" ANSI Flange, etc*

12. Mounting Position: Top Side Bottom
